TESTAMENT and LAST WILL of Krzysztof Ireneusz Pawlak a Founder and President of The EUGENIX® P.S.A. - Simple Stock Corporation

1. Eugenix ® Prosta Spółka Akcyjna is a smiple stock corporation registered in 2025 A.D. in the Republic of Poland by the founder Krzysztof Ireneusz Pawlak – a member of the Arcticus Blancus indigenous polar ethnic group.

2. Based on the United Nations Declaration on the Rights of Indigenous Peoples A/RES/61/295 Article 20 the Indigenous peoples have the right to maintain and develop their political, economic and social systems or institutions, to be secure in the enjoyment of their own means of subsistence and development, and to engage freely in all their traditional and other economic activities.

3. Indigenous peoples as defined in the article 21 have the right, without discrimination, to the improvement of their economic and social conditions, including, inter alia, in the areas of education, employment, vocational training and retraining, housing, sanitation, health and social security.

4. Indigenous peoples also as defined in the article 23 have the right to determine and develop priorities and strategies for exercising their right to development. Indigenous peoples have the right to be actively involved in developing and determining health, housing and other economic and social programmes affecting them and, as far as possible, to administer such

programmes through their own institutions which is a one of a circular goals of Eugenix P.S.A. climate and health programs for Arcticus Blancus.

5. Indigenous peoples have also the right to maintain and strengthen their distinctive spiritual relationship with their traditionally owned or otherwise occupied and used lands, territories, waters and coastal seas and other resources and to uphold their responsibilities to future generations in this regard and Eugenix P.S.A. stands with this very article to have Arctic and Antarctic returned to Arcticus Blancus and allow the Antarctic Ice Removal Program and Geomagnetic Dams Constructions to proceed with the lead and control of the Eugenix P.S.A. with Arcticus Blancus polar tribal groups.

6. All interested in continuation of the Eugenix P.S.A. indigenous plan must remember that God not only allowed and United Nations has defined in the article 26 that Indigenous peoples have the right to the lands, territories and resources which they have traditionally owned, occupied or otherwise used or acquired and the Indigenous peoples have the right to own, use, develop and control the lands, territories and resources that they possess by reason of traditional ownership or other traditional occupation or use, as well as those which they have otherwise acquired.

7. That is why it is written that states shall give legal recognition and protection to these lands, territories and resources and that such recognition shall be conducted with due respect to the customs, traditions and land tenure systems of the indigenous peoples concerned. In the Arcticus Blancus indigenous polar ethnic group uses an Ethnic Hair Quantum to define tribal belonging.

8. Eugenix P.S.A. in accordance with this resolution have the right to maintain, control, protect and develop Arcticus Blancus cultural heritage, traditional knowledge and traditional cultural expressions, as well as has the right to manifestations of owned indigenous sciences, technologies and cultures, including human and genetic resources, seeds, medicines,

knowledge of the properties of fauna and flora, oral traditions, literatures, designs, sports and traditional games and visual and performing arts.

9. Eugenix P.S.A. in accordance with this resolution have all so the right to maintain, control, protect, and develop own Arcticus Blancus indigenous intellectual property over such cultural heritage, traditional knowledge, and traditional cultural expressions and for same I ask after my departure in accordance with Eugenix P.S.A. various publications that describe indigenous views that must be upheld to maintain the planet and our polar ethnic groups.

10. Whatever you do to secure your rights remember that resolution mandates that states should act in conjunction with indigenous peoples and states shall take effective measures to recognize and protect the exercise of these rights for Arcticus Blancus indigenous groups.

11. Eugenix P.S.A. has developed a plan for own sustainment in accordance with the resolution that gives the indigenous peoples the right to determine and develop priorities and strategies for the development or use of their lands or territories and other resources.

12. It is important that indigenous people do not give any oral or written consents and promises regarding their lands or territories and other resources, particularly in connection with the development, utilization or exploitation of mineral, water or other resources, because the government has invaded indigenous territories and besides Eugenix P.S.A. there is no organization that cares strictly for the indigenous rights while respecting the rights and territories and natural resources of all other ethnic groups of non-polar climates.

13. The resolution states that States shall provide effective mechanisms for just and fair redress for any such activities, and appropriate measures shall be taken to mitigate adverse environmental, economic, social, cultural or spiritual impact. However, the truth is different. Arcticus Blancus must distinguish itself in any way possible from the states that do not give all

secured rights to the Arcticus Blancus indigenous groups to restore its indigenous mind over its indigenous bodies to care for its indigenous climatic polar territories.

14. Arcticus Blancus must not forget that resolution in article 33 secured that indigenous peoples have the right to determine their own identity or membership in accordance with their customs and traditions. This does not impair the right of indigenous individuals to obtain citizenship of the States in which they live. Indigenous peoples have the right to determine the structures and to select the membership of their institutions in accordance with their own procedures. Eugenix P.S.A. has published the indigenous structure of that will allow to manage indigenous affairs and climate restoration.

15. Please promote, develop and maintain our indigenous institutional structures and our distinctive customs, spirituality, traditions, procedures, practices and, in the cases when juridical systems will be established to operate them in accordance with international human rights standards.

16. The resolution also provided that indigenous peoples have the right to have access to financial and technical assistance from States and through international cooperation, for the enjoyment of the rights contained in this Declaration. Our indigenous geomagnetic restoration and indigenous rights restoration must be promoted as we have water a source of life. We must sustain our indigenous group male to female balance and population number. All the rights and freedoms recognized herein are equally guaranteed to male and female indigenous individuals.

17. Our females should be an integral part of our life and not a part of other groups sexual desires that lead to Arcticus Blancus economic, physical and sexual exploitation preventing Eugenix P.S.A. indigenous life and work in the polar climate. Article 35 of the resolution 61/295 states that Indigenous peoples have the right to determine the responsibilities of individuals to their communities meaning we have rights to direct our indigenous females and males to preserve

our indigenous groups procreation and territorial sustainment that includes geomagnetic repairs of the earth.

18. The above explained indigenous rights already by the United Nations and various indigenous tribes around the world, contained in the United Nations resolution A/RES/61/295 and other resolutions listed above are important to remember for our own sustainment as we are endangered ethnic group of polar regions that thousands of years ago begun the descent from the Arctic to study arctic ice meting, but got involved in to a long spiritual and legal battel that has numbered us to a small number scattered throughout the arctic, sub-arctic and other parts of the world that are not suitable for our present and future sustainment to our arctic heritage of climatically gened white hair phenotype, so me must do more for us to survive and save the planet that has tasked us with climate restoration and other important knowledge.

19. I am no ordinary person and have not lived an ordinary life, my lifeline stretches to times before Egypt was built. Arcticus Blancus descended down from the Arctic when it was frozen not only to Africa, but also to America and all other places that now are nothing but was ocean.

20. Whoever takes over duties of Eugenix® P.S.A. must know they are given by powerful authorities beyond the human reach that are balanced and decided in the universe not on earth. Whoever takes over will be a brain and body to a universe constantly calling us.

21. Although the knowledge given is very insightful the humanity has a big debt to Arcticus Blancus indigenous community that will never be repaid as the lost generations do not come back to earth to live but to guide how to stay away from others and fix the climate so we are not blamed for the collapse of the eco system of this planet precious to the universe more than our broken bones and blood.

22. The universe allows us to stay unchanged in the matters already legislated in the United Nations resolution A/RES/61/295 and this is the only life we can ask for besides Eugenix P.S.A. developed publications and documentation you will find on www.archive.org, www.eugenix.org (www.arcticusblancus.org) and other sources that Eugenix P.S.A. communicated to matters.

23. Fo now, I am still alive, so can also be alive to do the will of the Son (System of Original Nature) of God (Galaxy Orbit Dimension). We are not them; they shall not be permitted to be part of us. We are here only to regulate geomagnetic aspects of the planet until the next God to attend to. Restore Arcticus Blancus population, repatriate our exiled and captive back to the polar climate as they have lost connection with God.

24. I do not give consent to my immediate family and relatives to inherit Eugenix P.S.A. developed rights and intelligence. All rights reserved to Arcticus Blancus arctic climatic heritage of white hair only – ethnic phenotype defined in various Eugenix P.S.A. publications.

25. My body should be cremated, ashes wrapped in lined cloth and placed in unpainted wooden box constructed from arctic wood without nail and glue buried in the arctic with seeds of wooden box tree cutted down to make the box.

Amen,

K Pawlak
